DETAILED ACTION

Applicant's election of Group I (claims 1 to 20 and 23 to 27), filed 4/17/06, has been acknowledged.

This application contains claims 21 and 22 drawn to an invention non-elected with traverse.

Election/Restrictions

This application contains claims directed to the following patentably distinct species:

Species I, figures 3A-3D

Species II, figures 4A-4D

Species III, figures 5A and 5B. The species are independent or distinct because of the claimed different structures.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic to all figures.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after

Art Unit: 2826

the election, applicant must indicate which are readable upon the elected species.

MPEP § 809.02(a).
